

## **Photographers at IDO Championships**

Unfortunately it happens time and again that pictures of the participants of IDO-Events appear on unauthorized commercial websites.

For that reason we would kindly advise you that taking pictures at IDO events is permitted to the following person only:

- journalists and reporters who have been accredited beforehand (press cards must be presented upon request) – photos are only possible from the left side of the stage (seen from the audience)
- the official photographer authorized by the organizer who has the right to use the space in front of the audience before the center access.
- parents taking pictures of their children (this must be proofed upon request)

In the interest of the event being conducted in an orderly way, we reserve the right to revoke these permissions.

Thank you for understanding,

FDC organization
